## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-21 and 23-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches that a liquid crystal panel and the fabricating method comprises various element and steps as claimed, more specifically, as the following:

the first and second alignment layers partially overlapping the sealant region along a side of the sealant provided with the terminals; and an edge of the first and second alignment layers terminates in the sealant region; and another edge of the first and second alignment layers crosses over the sealant region to an outer side of the sealant along a side of the sealant other than the side provide with the terminals [claims 1, 10, 17, 23 and 24; as shown in Fig.5A].

The closest references such as US 6,507,381 (Katsuya et al) discloses that a liquid crystal panel wherein the alignment layers overlapping the sealant and US 5,317,434 (Ohara) discloses that a liquid crystal panel wherein one alignment layer cross over the sealant and along the side having wiring terminals. The prior art of record fail to teach two alignment layers overlapping the sealant, and one edge of the alignment layers ending in the sealant region along a side with wiring terminals, and another edge of the alignment layers cross over the sealant region as claimed and as shown in the Fig. 5 (A).

Art Unit: 2871

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
